

When asked why parents would or would not recommend Rainbow and why, they said...

- I think curriculum and venue is good, but i think its also very dependent on the teachers you get as noted above.
- I trust you, I find everything very professional, I feel like you love my child and care for him and give him the best tools there are and the most attention you can
- We love it at rainbow!
- My child developed and knows English
- The overall feeling, we get at gan and from our child's experience, the provision, the importance of updating parents on child development, the care takers' relationship with parents and children, and most of all, the bilingualism - we are very pleased with all of these and have recommended Rainbow numerous times!
- English speaking, open all year around, actually have a curriculum!
- Good staff and good hours
- We love you!
- I love Rainbow, but I don't think it's for everybody. First, because there are too many children in most of the groups and this bothers most of the parents I know, and secondly because of the very high prices.
- In bullet points:
 - learning English
 - operating hours and days (holidays and summer, late club)
 - good ratio between teaches and children
 - great facilities
 - great approach to child development
- My only complaint is the lack of effective communication regarding "big picture" stuff
- we are satisfied with Rainbow
- Love the work program, and all in all was happy with the staff
- צוות מקצועי, מגוון פעילויות, דגש על התפתחות וטובת הילד. דו לשוני בעל ערך מוסף
- I feel that the rainbow offers a great education and values. I can see our LO's Joy when he goes to gan, the way he talks about his caregivers, the communication fluency with the staff, and the overall hardwork that you do
- I have already recommended, love the staff, activities, bilingual nature of the gan, facilities
- Creative activities, wonderful bilingual staff, love the home visit before starting gan.
- Overall, highly experienced and dedicated staff, good overseeing of day-to-day ongoings and of child's development and needs throughout the year, wonderful premises
- Love the activities and daily routine
- Because I cannot think of another place as good as it is for my own child..just perfect. Thank you!
- It's a great, intelligent, reliable and loving establishment
- Good education
- The only thing that other parents need to think about, is the staff changes and the fact that you and your child need to adjust fast for these changes. My kids are happy at rainbow, so as long as they feel good, i am happy too. Thanks a lot for all the efforts
- Simply put, we were happy and satisfied, and our child was happy and satisfied.
- I will recommend for a million reasons, and mainly because I do not know another nursery school that takes the care and education of our children with such seriousness and professionalism, that chooses its staff with precision and meticulousness and invests time and resources in them, that thinks about every detail including equipment, activities and learning environment, and also investing in the visibility and aesthetics of the place ... Thank U !
- Very high standards. And no vacations:)
- Simply because you are the best!!!!
- The place is run seamlessly, I always feel Mai is safe and well cared for, challenged in her learning and development. I like the multicultural vibe and manners, the staff is amazing. I like that there's more male staff members (rare in Israel often), and that the gan is inclusive of all families.
- Very satisfied mostly. really expensive (now even more, and less time on Friday..) a lot of staff movement, but in general we do recommend.
- Great staff, great facility, and great teaching. Overall very, very, very happy with Rainbow
- The development plan of the children, the bi-lingual approach, the 'we work when you work' agenda, the staff, the location.
- Mostly good staff, great daily routine, wonderful activities.
- Well organized
- In Yavne I think the stability of the stuff and program will be more and more accurate and improved.
- I like the structure and British curriculum that Rainbow provides, along with the vegetarian meal options. I've also found it easy to speak to the teachers and admin staff if there are any concerns and there is always a good response. Klara always comes back with good impressions of at least one teacher during each semester and I take that as a good sign that she is happy and feels safe and bonds with her teachers.
